

Process for Viewing Proposed Changes to D'MOSS on the eThekwini Maps Platform

In order to view proposed changes to D'MOSS on a property, follow the following steps:

1. Cut and paste this link into your web browser

http://196.11.233.27/gis_Website/internetsite/#mapviewer

2. Click on the "Open the Public Map Viewer" tab

3. Enter the address of the property in the search tab. Should the address you have typed in not appear in the drop-down, press enter.

4. Click on the "Layers" tab to the left of the Map in order to reveal a drop down menu.

5. Click the boxes for "Infrastructural Services" and "Aerial Photos", and uncheck the box for "Base Map Data".

6. Under "Infrastructural Services" click the box for "Environment".

7. The Environment layer reveals various vegetation types under the "Metro Open Space" layer. This is the existing approved D'MOSS layer.

8. You can use the + or – symbols on the top left hand side of the map to zoom in or out.

9. Below the "Metro Open Space Layer" are two further layers called "DMOSS Added 2016" and "DMOSS Removed 2016". These layers indicate the proposed changes to the D'MOSS Layer.

10. To obtain a clearer indication of the changes, the "Metro Open Space" box can be switched off by clicking the tick in the box.
